

Md Kaif Mondal

Frontend Developer

+91-9883692400 — mdkaifmondal827@gmail.com LinkedIn

Summary

Frontend Developer with hands-on experience in building responsive web applications using HTML, CSS, JavaScript, and React. Developed multiple projects including Portfolio Website, Blood Bank Management System, Weather App, and an AI-based Autism Spectrum Disorder Prediction Framework. Skilled in Git, GitHub, VS Code, Figma, Responsive Design, and modern web development practices. Seeking opportunities to contribute, learn, and grow as a Software Developer.

Skills

Programming Languages: Java, JavaScript

Frontend Technologies: HTML5, CSS3, JavaScript, React.js

Database: SQL

Tools: Git, GitHub, VS Code, Figma

Other Skills: Responsive Web Design, UI/UX Design, SEO Basics

Experience

Web Design Front-End Intern

Feb 2026 – Mar 2026

Vidyavan (Shiva Tech Innovations)

- Successfully completed a one-month internship in Front-End Web Development.
- Worked on HTML, CSS, JavaScript, and Responsive Web Design.
- Developed responsive and user-friendly web interfaces.
- Strengthened practical frontend development and UI implementation skills.

Projects

Multimodal Autism Spectrum Disorder Prediction Framework

- Developed a Multimodal Machine Learning Framework for Autism Spectrum Disorder (ASD) detection by integratin.
- Built and evaluated ML/DL models including XGBoost, EfficientNet-B0 with CBAM, and Custom CNN, achieving up .
- Implemented a confidence-weighted late fusion strategy to combine predictions from multiple modalities and improve diagnostic reliability.
- Designed a web-based AI screening system for early ASD assessment, enabling scalable and accessible preliminary diagnosis support.

Portfolio Website —

- Built a modern personal portfolio website using React and Tailwind CSS.
- Implemented responsive layouts, smooth animations, and dark-theme UI.
- Showcased projects, certifications, skills, and contact information.
- Optimized performance and mobile responsiveness.

Blood Bank Management System — HTML, CSS, JavaScript

- Developed a responsive Blood Bank Management web application.
- Implemented donor registration and blood request functionalities.
- Added JavaScript-based form validation.

- Designed mobile-friendly UI and responsive navigation.

Weather App — JavaScript, REST API

- Developed a real-time weather forecasting application.
- Integrated OpenWeather API for live weather updates.
- Implemented location-based weather detection.
- Designed a responsive and user-friendly interface.

Certifications

- Data Structures – Coursera
- Soft Computing Techniques – NPTEL
- Python with Django – Ardent
- Full Stack Web Development – IALSD
- Generative AI – Webel Fujisoft Vara Centre

Virtual Experience Programs

AWS APAC Solutions Architecture Virtual Experience Program Jan 2026

- Designed scalable cloud hosting architecture using Elastic Beanstalk.
- Explained architecture design and cost estimation in client-friendly language.

Electronic Arts Software Engineering Virtual Experience Program Jan 2026

- Proposed a feature enhancement for EA Sports College Football.
- Created class diagrams and C++ header files.
- Implemented bug fixes and optimized data structures.

Education

B.Tech in Computer Science and Engineering 2022 – 2026

Guru Nanak Institute of Technology, Kolkata

CGPA: 7.42 / 10

Higher Secondary Education 2022

Chachanda B.J High School

Percentage: 84.40%

Secondary Education 2020

Baharagachi High School

Percentage: 84.57%

Personal Details

- Date of Birth: 11/08/2003
- Nationality: Indian
- Languages: Bengali, English, Hindi
- Address: Bandkhala, Naihati, Birbhum, West Bengal - 731237
- Hobbies: Playing Cricket
